THE WHITE HOUSE

THURSDAY, DECEMBER 18, 2014 | 7:30PM
WASHINGTON, DC

IFE MISSION

The Institute for Education's (IFE) mission is to recognize and promote leadership, civility, and finding common ground, locally, nationally, and in the world community. IFE also educates youth for global citizenship with programs that foster intercultural appreciation.

IFE convenes diplomats, political, business, media, academic, and community leaders at the highest levels to encourage collaboration. IFE's success in establishing common ground presents opportunities for leaders to share knowledge and explore innovative solutions to the most critical challenges of our time, while also helping to strengthen public policy outcomes and encourage greater global understanding.

This includes the IFE's flagship program INFO Public Policy Roundtable, its Youth Global Citizenship and NEXTGEN programs; as well as roundtable forums with trend focuses on Media and Technology, Emerging Markets, and Innovation.

MEDIA & TECHNOLOGY ROUNDTABLE (MTR)

MTR brings together private and public sector leaders to explore the accelerating, technology-driven trends that are changing the nature of media – who creates it, how it is created, how it is monetized, the rise of new media and their threat to media incumbents, and the many new opportunities and challenges facing governments and policy processes that are generally still oriented around the traditional version of the “fourth estate.”

MTR meets regularly for off-the-record dinners aimed at open dialogue between experts in the many different areas that shape media – business, technology, finance, journalism, entertainment, academia, and policy/government. Guest speakers are invited to each dinner to serve as a catalyst for the broader investigation of topics.
